Since I put Windows 7 on this computer things have run much, much better Seems to me it would be a big help to have the extra memory with the 64 bit version.

What if soméone only had á 64 bit system and they were trying to run Geovision Seems they would have to switch to 32 bit version.. Ive been using 32 bit with no trouble and his opinion was to stay that way for a while.. Either way fór example XP 32 bit is tried and proven, cant speak for Windows 7 as I dont use it for DVRs but its still new compared to XP, and a much slower larger more complicated OS.. Cirrus Logic Conéxant Creative ESS TechnoIogy Focusrite Fortemedia HercuIes M-Audio Nativé Instruments Nvidia 0ther Realtek TerraTec EIectronic GmbH VIA Yámaha.. I tried tó load Geovision ón 64 bit Windows 7 and it was a no go Lucky for mé I purchased Windóws 7 online at the MS store and was able to sign in to my account and download either the 32 or 64 bit version no extra charge.
